Attn: Mr. J. Swam
United States - Special Representative
for Somalia and Head of the United Nations
Assistance Mission in Somalia

Ref: Peoples Request for immediate
Attention for Somalia and the coming elections

April 6, 2020

Dear Mr. Swan:

On behalf of the people of Somalia, the elders (Orthodox Islam), the three state elected leaders, and Mr. Hussen Mohamed Farah Aidid and our company who has represented in the past these three state leaders and is currently the campaign adviser, coordinator and strategical manager for Somalia National Alliance Party (SNAP) which is registered and in full compliance for the coming election in 2021 in which Mr. Aidid is the presidential representing candidate, I forward this urgent request to your attention.

Collectively, they wish to make emphasis on the following points of concern and that these concerns be addressed by SAACS on their behalf and brought to your attention. This is the wish and consensus of all the Somali people:

- Somalis wish to maintain and preserve the true Islamic traditions which have been dissected by the current administration.
- That the traditional religious and way of life of Islam in Somalia needs to be kept sacred and work with the elders (Orthodox Islam) by maintaining its respect and traditions for all people and seek complete assistance and work together with the United States of America and Germany.
- Culture and Traditions must be kept sacred and have the full support for this system to thrive for all Somali people and not be abolished by any outside force such as the current radicalism that has been in existence for years. One point which they want to address is that because the traditional system of the elders has been the force which has prevented further escalations and disruption all throughout Somalia. For these reasons, the elders must be incorporated and be a part of decision making which will allow the Somali people's intellect to become a part and a voice of what they want and need.
- The future leaders of the Somali administration will incorporate approximately thirty percent of female population who meet the requirements within the new administration and who will have a voice in all national decision making, businesses, infrastructural development, and in the political sector as well.

- They wish to maintain and have all respect the Somali ways of thinking and handling their own religious and traditional differences. This can be accomplished by maintaining the respect amongst all Somalis as being equal and having an individual voice on all matters.
- They wish for the United States and Germany's full participation upon all these principles being implemented to be a part of the new political and business growth for the new Somali Republic.

The people working alongside with the rest of the nation are instrumental in moving forward Mr. Aidid's campaign once he is in country; however, the most important element is to acquire the proper aid and assistance required to achieve these goals and new political system within all of Somalia. The Somali people understand, as we do, that the current system has a huge financial backing which is due to the current influx of radical large sums of funding being used for the wrong reasons. This is an issue that the people of Somalia continue to address.

These goals can be realized if all the people of Somalia can sustain themselves throughout the process of the elections and have the same financial force and advantage needed for Mr. Aidid's campaign in the coming election. This can only be achieved if this is made possible. Reaching these goals of putting him in place can only be possible if aid is provided which in turn will facilitate a new leader and righteous administration for the people. They know that the fight is going to be tough; however, with the proper financial assistance and funding, they will prevail and have in place in 2021 a new political system and leader that will work for all Somalis.

The Somali people are waiting for Mr. Aidid's return, but this requires the elements to be able to stand strong; not just with the people, but financially as well. They know this can be done and take place if the aid is made available. The people are awaiting his arrival and stand ready to work with him throughout this process; however, if the needed elements are not immediately in place for him to have a strong entry back in country, and the competitive advantage for proper security and promoting his ideals across the nation are not stable and secure, it would just make it harder for the people to put in place what they want and need.

On behalf of our company and the people of Somalia we request that a response and your immediate attention be provided to this urgent matter. If the proper assistance and aid is provided as needed, the people know that Somalia with a new administrative leader will excel and become a productive, secure, and stable nation.

Respectfully yours,

URGENT MATTER FOR YOUR PERUSAL

April 11, 2020

Dear Mr. Swan:

Our internal sources within Somalia have been for some time intercepting phone calls and messaging from individuals who were the main actors and orchestrators working under the orders and command of those currently in power and planned and conducted the bombing attack in Mogadishu that killed Eng. Yarisow Ex-Mayor of Mogadishu and many others. It is our understanding based on our internal sources' information that you were the intended target. You were present that day in the same local which was targeted and by the grace of God, you left the area shortly before the explosion. Our internal sources have communicated to us that the bombing that killed the Ex-Mayor of Mogadishu was mainly intended to harm you and others as well.

We have full access to all the intercepted phone recordings, messages, phone numbers, names of individuals, and locations of all who have committed this atrocity and others as well. All we ask is that you find the time to reach out to our company ASAP so we can further help you prevent any further bloodshed or deaths. We have full capabilities to gather further data/information if so required and needed.

With the proper assistance, Mr. Aidid's presence in-country and the help of the people, control of these matters is possible. All the people want is to have all this interfering and atrocities stop. This is possible by having a righteous leader and political system in place which is the wish of all Somalis. The people understand that the presence of Mr. Aidid in-country can make and resolve the current problems and situations in Somalia.

We ask that you reach out to us. This continues to be the wish of the Somali people and Mr. Hussen Mohamed Farah Aidid for you to schedule a meeting with SAACS and its representative to map out and plan what would be required with the hopes to further assist you in your work needed for the people of Somali and its infrastructure. Our internal sources and SAACS can be instrumental and make the work needed in Somalia more effective and productive for all parties involved.

SAACS's reach and capabilities, alongside Mr. Aidid and the people of Somalia and the three state leaders including the State of Galmudug, can put together the proper elements and protocol that will prove to be effective and bring positive results for your planned agenda for Somalia and its people. The people are eager to help and re-establish the security, stability, peace, productivity, and humanitarian work needed for all Somalis. They have faith in your planned objectives and goals and wish to extend alongside the three states and their leaders their full corporation to bring these possible changes for the country and the people.

Respectfully yours,
